

MLC OCC Constitution Amendment – Rule 52 Explanation

Since the forming of the new Constitution, we have become aware that the process for the management of the OCC funds is not in line with the actual practice as the College administers the funds on the Club's behalf. This is common practice for all of the College's affiliated clubs and associations (e.g. Parents Association).

The proposed amendment brings this long held practice in line and will not impact the Club in any way.
